ERRATUM TO SPECIAL PUBLIC NOTICE

NATIONWIDE PERMIT REGIONAL CONDITIONS FOR LOUISIANA

On February 21, 2012, the U.S. Army Corps of Engineers (Corps) published notice in the *Federal Register* announcing the reissuance of Nationwide Permits (NWP), general conditions, and definitions with some modifications. The NWPs became effective on March 19, 2012, and will expire on March 18, 2017. On March 15, 2012, the Mississippi Valley Division Engineer approved regional conditions for the NWPs in Louisiana. On March 30, 2012, the New Orleans District issued a Special Public Notice containing these regional conditions for the NWPs in Louisiana.

On June 1, 2012, the Louisiana Department of Natural Resources, Office of Coastal Management (OCM) issued their coastal zone consistency determination regarding the NWPs. The NWP regional conditions for Louisiana have been updated to reflect OCM's coastal zone consistency determination. The purpose of this erratum is to provide interested parties the updated version of the regional conditions for the NWPs in Louisiana. The New Orleans District has posted these updated regional conditions for NWPs issued in Louisiana on our Regulatory webpage at:

http://www.mvn.usace.army.mil/ops/regulatory/reg_program.asp.

Questions regarding this matter should be directed to Mr. Stephen Pfeffer at (504) 862-2227 (stephen.d.pfeffer@usace.army.mil) of the Regulatory Branch.

Pete J. Serio
Chief, Regulatory Branch
